Jenmon delivers shipyard order

21 October 2007

Jenmon International, Verlinde's agent in Singapore, has delivered an order of an 80/25t double girder overhead crane with 26m span and a 35t gantry crane with 35m span to PPL Shipyard.

Inclusive in the contract is the modification and relocation of a 20t gantry crane with 20m span. The wire rope hoists are from the Eurobloc VT range.

The 80/25t overhead crane was designed based on bogie wheel end-carriages in order to reduce wheel loading pressure and subsequently reduce infrastructure cost of the overall building as it is location near the coastline, according to Jenmon engineers.
